

RegScan Register™ is the most complete Federal Register service available! It includes 100% of the Federal Register information published – final rules, proposed rules, notices and corrections – everything found in the paper version. And with the power of the RegScan for Windows™ search engine, you can be sure you'll find every piece of information you need quickly! Using the companion LookOut™ Email Alert Service, allows you to focus on the critical issues, while still having full browse and search capability for all Federal Register issues. Compliance regulations change daily! Don't get caught being out of compliance due to recent changes you were not aware of.

in the registers, an easy-to-use interface, bookmarks, and margin notes. A free subscription to LookOut™ (a \$175.00 value) is included with each RegScan Register subscription. LookOut is your personal email alert service. Using advanced Boolean logic, LookOut™ constantly monitors the Federal Register for changes in your specified interest areas. If a change occurs, LookOut™ generates an email with a link that directs you to the corresponding article in the Federal Register.

Availability

RegScan Register is available on both internet and CD-ROM formats.

Internet Version

Each business day (by 12:00 pm EST) the updated Federal Register is posted to the web site and is available for searching. You never have to worry about having out-of-date information. Also included is the previous 12 months of the Federal Register.

CD-ROM Version

The CD-ROM contains the same functionality as the Internet version. However, it is updated on a monthly basis as opposed to daily and can be accessed by one user. The Register displays all current changes for the month and also provides access to the prior 12 monthly Registers. All information is created in HTML format (NOT

PDF) which is fully searchable using RegScan's powerful search engine and can be accessed simultaneously by up to 5 users. The RegScan Register has full text, tables and contains all graphics.

Bonus

With each annual subscription to, you will also receive a complimentary annual subscription to LookOut™ Email Alert Service; \$175.00 value.

Updated Daily

RegScan Register is the most current Federal Register you can get. By noon (EST) of each business day, the updated Federal Register is posted and available for searching. Each Federal Register not only displays today's changes, but all prior changes for the month.

The Power of RegScan

The RegScan Register provides powerful features like hyperlinks, simple or complex searches using Boolean (AND, OR, NOT) search logic, a lexicon of every word
